Eco-friendly development with the heart of a neighbourhood. Not just a place to live but a way of life.

This complex occupies 500.000m² of land dedicated for its residents. With over 100.000m² of sustainable landscaped gardens, pedestrian and bicycle circuits, jogging and walking trails, an array of swimming pools, pet park, co-working space, picnic and play area and concierge services... this place is a truly new way of comfortable and luxury living!

Low rise apartment buildings consist of spacious homes with large size terraces from 25m² to 185m². Panoramic sea and mountain views from almost every apartment makes this new complex highly desirable on the Costa del Sol.

A free lifetime family membership at the luxury hotel next door provides you with an access to an array of luxury activities - spa center, fitness club, padel and tennis courts, several restaurants including 1 which holds a Michelin Star!

This is far more than just a property development on the Costa del Sol, it is a master-planned community with a first-class infrastructure and set of support services designed to offer a superior quality of life to its residents. The flowing design of the development makes full use of the natural shape and gradient of the land, allowing for a high degree of privacy that assures stunning views across the Costa del Sol coastline and the Mediterranean Sea – and makes your home the place where you can clear your mind and re-energise.

The apartments are open planned and spacious and have been designed to recreate the experience of living in a villa. Standard benefits and installations will include:

A choice of kitchen colours and worktops

A choice of floor options

Private parking and storage spaces

Power outlets to charge electric cars and bikes
