M2 Terrace: -

Address: Competa,

Storage This property is located in a peaceful setting approximately a fifteen minute drive from the village of Competa. Access is via a tarmac road. This is a total renovation project and could result in a wonderful traditional home set in the Andalusian countryside. The building is currently divided in four rooms. There is an original fireplace in one of the rooms and all the ceilings are formed using wooden beams. Outside there is a terrace shaded by an ancient algarrobo tree. The property has electricity and water. The views are wonderful taking in the surrounding countryside, mountains and the Mediterranean Sea. A fascinating project in a tranquil but not isolated location. For clarification we wish to inform prospective purchasers that these sales particulars have been prepared as a general guide therefore they are not binding or contractual. Features \* Parking \* Sea View \* Terrace
