For sale beautiful townhouse completely renovated at 13.5 km from the beach of Las Marinas, in Denia. 3 minutes from the sea, about 80m. It has its own fenced plot, several terraces and garden.

This beautiful townhouse has been completely renovated in 2010, completely renovating windows, doors, plumbing, electricity, floors and tiles both bathroom and kitchen. Grates have been installed on doors and windows for greater security. The house is in an impeccable state of conservation. It is all exterior, with exit to 2 streets, sunny from sunrise to sunset. It has a covered parking area within the same plot in the back and a beautiful paved terrace. We went to the distributor and found a large gallery where the washing machine, laundry and several shelves with a lot of capacity are installed. Bathroom with shower closed by a screen and the kitchen, with furniture and new appliances. From the kitchen you access the living room, very spacious and sunny, and in turn from the living room to the porch and front terrace also paved, very easy to keep clean. Surrounding the terrace is a ditch and different flowers have been planted hibiscus, rosebushes, jasmine .. The 1st floor is divided into 3 double bedrooms, all with fitted wardrobes and ceiling fans, so it is not necessary to install air conditioning, and a 2nd full bathroom with tub closed by screen. 2 of the bedrooms have access to the balcony.

Unbeatable area to reside or enjoy holidays, on the longest beach in Denia, adjoins the beach of the neighboring town of Oliva. It is the furthest from the urban area of ??the city. It has a special charm since it has been the one that has preserved its wild nature the most. In it you can still see Dunes and enjoy a fine white sand.

Do not miss the opportunity to visit this beautiful townhouse without any commitment.
