This very large property is in need of reform but has great potential to be turned into a lovely family home or to be rented out as 2 separate apartments for investment purposes. The villa sits on a beachside plot of 800m² only about 200m from the sea, on the New Golden Mile between Estepona and San Pedro. At the moment the property consists of 2 reception rooms, 2 kitchens, 5 bedrooms and 3 bathrooms divided into 2 self-contained floors. The property is on the corner of a residential area and is surrounded by its mature gardens, offering a good size pool and a shaded BBQ area.
