The property is built on two levels plus an attic with windows and has kept the original architectural features which are evident if you look at the windows that were so popular and fashionable during the 1800s. At the beginning of the last decade the property was restored using quality finishings, granite floor tiles with the decorations of the period and wide staircases with original banisters in iron. The doors and windows are also original. Everything has been preserved in the best possible way. The property comprises:

- Bright spacious living/dining area;

FIRST FLOOR

- Large landing with a reading corner;
- Two double bedrooms;
- Dressing room
- Large bathroom with shower;

The villa is ideal for those who are looking for privacy but with services close by. At present the property is furnished with antique furniture which can be included in the sale at an extra cost.
