The building was created with first quality materials and is in perfect condition. In addition, the residents comfort is guaranteed by a home automation system and an alarm system of the latest generation. Another extra that is worth mentioning is that the house is sold fully furnished. Across the two floors (the property has 350m2 on a plot of 1.047m2) are distributed 4 bedrooms and 4 bathrooms. Also there is a living room that boasts several beautiful Tosca pillars. Of the same Tosca - stone the Naya is built, from which one enjoys the view to the sea and the Infinity - pool. In addition to the Naya, also terrace, storage room, patio, sun terrace and a garage for cars are available. The entire property is fully equipped with alarm and video - intercom, air conditioning, underfloor central heating, fireplace, fitted wardrobes ...
