In the middle of a pine forest, with panoramic views of the sea, the valley and the Montgó, we find this rustic villa, typical Mediterranean; in the middle of nature and enjoying the tranquility and privacy that many of us are looking for. The house has three heights with six bedrooms, five bathrooms, ideal for rural hotel or habitual housing for large families. It is accessed by a large hall that can be an office as well; spacious living room with fireplace, a very cozy room with fireplace and a closed naya with floor-to-ceiling windows as a reading area. The kitchenette fully equipped. Renovated in 2010 with good taste, maintaining the rustic Mediterranean style.
