M2 Plot: 800²
M2 Terrace: -
Address: Moraira,Alicante

Modern style villa project with seaview for sale in Moraira.

A stunning project to build a luxury & contemporary villa, boasting panoramic sea views in “EL TESORO” - Moraira’s most modern urbanization. EL TESORO has modern infrastructure like wide paved road, pavements, green areas, mains drainage, street lighting, underground cables, gas – water and electricity connections, centralized post box as well as recycling point. EL TESORO is located within 5 minute drive to Moraira and beaches and it’s within walking distance to a number of shops and restaurants at Tabaira Commercial Centre.

This stunning project will be built on a flatish South facing plot, commanding panoramic sea views. The project has been designed by an Architecture Studio from Valencia. The villa will be built using the latest building techniques and quality materials and fittings. Show house available by appointment. Outside, a large terrace for sunbathing around the swimming pool and Mediterranean gardens with irrigation system. There is the possibility to develop the basement level, incorporating a double garage, technical room and further scope for home cinema or gym.

Other highlights are: Infinity pool, Conduit air conditioning, Kitchen with Bosch appliances, Jacuzzi, Garden with artificial decorative grass, Store room, exterior WC, laundry room & waterfall next to main door.

Definitely a unique & well thought villa for those who desire only the best.
