Price: €1,870,000

Bedrooms: 3

Bathrooms: 2

M2 Living: -

M2 Plot: -

M2 Terrace: -

Address: Portofino Liguria

Portofino (Genova) - PORTOFINO (GE) - Directly overlooking the famous and characteristic port of Portofino, from which you can enjoy a splendid view up to Brown Castle and S. Giorgio's church, we propose an apartment located in a typical Ligurian building on the second floor with access both from the Calata Marconi both from the main access road to Portofino. Internally it is in excellent condition, it has been completely renovated and it's divided into a living area with kitchenette with three large windows overlooking the port and a sleeping area consisting of three bedrooms and two bathrooms.

Location

It is one of the landmarks of Liguria and tourism in the Mediterranean. Famous in the world and all to see: here is Portofino, a seaside village built around a bay, with tall and colorful houses leaning against the harbor and the famous square. Here the sea reflects the colors of the houses, the sky and the vegetation and it hosts the yachts, the boats and the ferries that arrive and shelter.

Services

Everything is in perfect harmony: this is Portofino. Once a picturesque fishing village, today it is the symbol of "exclusive" living, of refined living, where a splendid natural and landscaped context is the shining background to this worldly and luxurious life of one of the most "in" bays of the whole peninsula; a small village that expands like a moon arc around a calm basin.
