New built villa in benijófar

fantastic design project, created from a meeting between several technicians and architects who were looking for the best way to capture the good work of construction and knowledge of the sector.

This magnificent home can be made in 3 and 4 bedrooms with a very large living room with modern integrated kitchen and laundry room.

The garden comes complete with an outdoor kitchen and a 27 m2 pool with impressive views of the Sierra de Orihuela and the Vega Baja.

Benijófar is a typical Spanish town with everything you need for day to day life. It has several golf courses in the surroundings (La Marquesa, La finca golf) and is 15 minutes from the beaches of Guardamar and Torrevieja.
