Independent two-storey villa, built with the highest quality materials. There is the possibility of customizing the finishes of the house and it has a large terrace on the first floor of 20m² and a 20m² porch.

The model is built independently, thus obtaining a high level of privacy in the home. It is designed in a sustainable way with the latest technologies, security measures and habitability in addition to all the tools to reduce the environmental impact. In this way, it provides a high degree of energy savings.

The villa is characterized by being functional and having a careful design around the 151m² built. The lighting that inhabits this model is due to the large windows on the main facades, designed so that there is a perfect integration between the interior and exterior spaces of the house, achieving great luminosity throughout the day.

The construction is carried out on a 370 m² plot, it has a large American kitchen integrated into a 46m² living room, 1 bedroom on the ground floor and 3 on the first floor, 3 bathrooms and a walkable basement with access from inside the rough house, with finishing option. There is the additional possibility of building a private pool on the plot.

How the housing is distributed

The house is distributed on two floors and a basement of 80m², 4 bedrooms, 3 bathrooms and an American kitchen incorporated in the living room. It also has a large terrace on the first floor. The ground floor has a porch that allows you to enjoy the great weather that characterizes the Gran Alacant area outdoors.
